Sealing Products

Confirmation of FDA-Conformity of VICTOR REINZ «AFM 34»

We herewith confirm that the flat gasket material VICTOR REINZ «AFM 34» is FDA-conform according to the US-American requirements in 21 CFR (Code of Federal Regulations) §177.2600 «Rubber articles intended for repeated use». This was examined and confirmed by a renowned independent testing institute.

The flat gasket material VICTOR REINZ «AFM 34» is thus classified as safe according to 21 CFR §170.3 (i) at proper conditions of use in industrial food processing and storage facilities, e.g. in flanges of pipelines, in vessels and containers for food as well as in pumps, control fittings and check valves, etc. for all types of food.
